CRC Believes

- **ALL children are precious and should be taught accurate, scientific, fact-based information, as required by COMAR [State Law], that promotes tolerance for all people. Tolerance does not necessarily mean approval.**
- **As parents, WE are responsible for our children's well being.**
- **The health of ALL children is important.**
- **The public schools should not violate the Free Speech and Establishment clauses of the First Amendment of the U.S. Constitution.**
- **Public schools should include all reasonable viewpoints**

CRC Believes

Heterosexuals Have Rights Too

Propaganda vs The Truth

It is all around you!

Propaganda

About Health

- “It’s as healthy to be gay, lesbian or bisexual as straight...” PFLAG (Parents, Families and Friends of Lesbians and Gays) [underline added]
- "School officials should be deeply concerned about the validity and bias of materials or presentations that...suggest that being gay, lesbian or bisexual is unhealthy." GLSEN (Gay, Lesbian, Straight Education Network) [underline added]

Truth

**Agencies of the United States
Government conclusively show
that homosexual sex is far more
dangerous than normal,
heterosexual sex.**

Propaganda

The representative on the new MC Citizen Advisory Committee for Teach the Facts, Jim Kennedy said

“-----, this might seem strange to you, but I don't see an age-limit for a term like ‘anal sex.’”

“There's nothing you can say about *gay* sex that's any different from any other sex.”

Propaganda

**PFLAG Promotes Transgender
as Normal, Natural,
and is pushing Acceptance and Approval**

PFLAG States:

- **"Being transgender or gender variant is not a disorder ..."**
- ***"Being gay, lesbian, bisexual or transgender is as okay and as natural as being straight."***
- ***"Make accommodations for transgender students in gender neutral bathroom use, dress codes and athletic teams."***

The Truth from the American Psychiatric Association

**Transgendered people have a Gender
Identity Disorder according to the
American Psychiatric Association
Handbook of Mental Disorders and
warrant psychological treatment NOT
surgical mutilation**

American Psychiatric Association, Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, pp530-31, (1994).

Gay, Lesbian, Straight Education Network [GLSEN]

Did you know?

- GLSEN has now moved into Maryland!
- **GLSEN was the organization that provided workshops in Mass. for teachers and students on how to have anal sex.**
- GLSEN is the sponsor of the Gay/Straight Clubs in the High Schools in Mont. County
- GLSEN is working with *Teach the Facts* organization

GLAAD, a National Gay Rights group, is Training Homosexual Groups in Maryland in Media Skills

- “GLAAD'S Director of Regional Media, Rashad Robinson, and I [Mike Lavers] **trained five members of Teach the Facts**,...on how to be effective spokespeople” [bold and underline added]
- “These meetings and outreach efforts have certainly laid the groundwork **for further work in Maryland**...” [bold and underline added]

From GLAAD NORTHEAST REGIONAL NEWS UPDATE “On Tuesday, October 18,

MCPS does not have a Policy for Parental Permission for Student Participation in Student Clubs

GLSEN Encourages Students

- **to "work to eliminate policies that require parental permission for participation in the [Gay/Straight] student clubs" in order to protect the privacy of those students who don't feel safe "coming out".**
- **[This way they can supply erroneous and indoctrinatory information to students without parents even knowing.]**

GLSEN-Recruits Confused and Naive Children by Indoctrination by

- Providing Gay Straight Alliance workshops all over the country
- Paying All expenses for workshop participants- [airline, hotel etc]
- Targeting 13-19 year olds for these workshops
- Where are the parents? These workshops include minor children!
- Who is checking out the workshop teachers?

Propaganda

PFLAG and others Promote Homosexuality as Genetic and Normal

- "Being gay, lesbian, bisexual or transgender is as okay and as natural as being straight." *
- "Being GLBT is as much a human variation as being left-handed ..."

*PFLAG

TRUTH

Heterosexuality is the Norm for over 97% of the population of the U.S.

- **All other sexual orientations are a deviation from the NORM**
- **That is why they are called sexual variations**

There is NO scientific proof that Homosexuality is Genetic.

The American Psychiatric Association, 2000 Position Statement :

- **“ ..., to date there are no replicated scientific studies supporting any specific biological etiology for homosexuality”**
- **There are Thousands of Ex-gays**

CRC Believes

- **Every individual has the right to a heterosexual identity if that is what they want and**
- **Individuals who have unwanted homosexual feelings have a right to change those feelings.**

Diversity includes Former Homosexuals.

**These are just a few Examples
of the Misrepresentations that
are Typical of too many of the
Organizations that will be
Represented on the new
Citizens Advisory Committee**
